This information is to give you an idea of how I work and what I can offer for you and your child. If there is anything which is not included, then please do ask and I will be happy to go through this with you.

The policies and procedures are put in to place so we both understand how the setting is run and what is expected of each other.

About me

My Name is Sophie Dennis and I would like to welcome you to 'Sophie's Den Childminding'. I live with my husband Alan and my Son Brandon who was born in 2006. We moved to the Village in 2012 and really enjoy the village life and all that it has to offer.

I have been working with children for over 15 years and I have experience with children from birth to 16 years old.

From a young age, I always knew that I wanted to work with children, I started out when leaving school, studying for my BTEC National Diploma in Care. During this time, I worked in various nurseries and schools as a nursery nurse and lunchtime assistant in a secondary school. In 2014 I decided to take a break and return to education, I completed my Foundation Degree in Education and then went on to obtain my BA Honours in Education.

After this time, I decided to return to work in a nursery where I worked my way up to become a manager, during this time I gained various experiences and got to meet lots of new people. I decided it was then that I needed a new challenge, I love teaching and watching children learn, childminding combines both.

About the Setting

My husband, son and I live in a lovely 2-bedroom home in the quiet village of Trispen. We have an enclosed private garden and space for the children to explore and learn.

I provide children with a safe and happy, stimulating environment that encourages them to develop as individuals in a friendly, homely atmosphere.

The children will have use of the following rooms:

- Living Room- This is the main play room which has toys, books and other exciting things, children will have the use of the tv and books at lunch for quiet time if they are not sleeping and for looking at books in the cosy area.
- Kitchen- This is where all arts and crafts take place as well as baking and lots of other lovely activities, the children will also sit at the table to eat snacks and meals.
- Garden- The children will have lots of time to play and explore outside in the garden, we have outdoor games and resources including sand and water trays, we will also be growing our own fruit and vegetables.
- Bedroom - The bedroom space will be used for those children who require a rest during the day, there are travel cots for younger children and sleeping mats for the older children.

Meals

Sophie's Den is committed to providing fresh, healthy and nutritious meals and snacks for the children. All the meals and snacks are freshly prepared in-house, and I encourage the children to sample new flavours. I will provide milk at snack times and fresh drinking water is available throughout the day.

Below is an example menu of some of the snacks and meals your child will be offered whilst at Sophie's Den, I will inform you each day that your child is with me which snacks and meals they have been offered and what they have eaten. Please inform me of any allergies your child may have so that I can provide alternatives where necessary.

A Parent's Guide to the EYFS

Every child deserves the best possible start in life and support to fulfil their potential. A child's experience in the early years has a major impact on their future life chances. A secure, safe and happy childhood is important in its own right, and it provides the foundation for children to make the most of their abilities and talents as they grow up. When parents choose to use early years services, they want to know that provisions will keep their children safe and help them thrive. The Early Years Foundation Stage (EYFS) is the framework which provides this assurance.

What is the EYFS?

The EYFS is a stage of children's development from birth to the end of their first (reception) year in school. The EYFS Framework describes how early years practitioners should work with children and their families to support their development and learning. It describes how your child should be kept safe and cared for and how all concerned can make sure that your child achieves the most they can in their earliest years of life.

It is based on 4 important principles

- Unique Child- every child is a competent learner from birth who can be resilient, capable, confident and self-assured.
- Enabling Environments-the environment plays a key role in supporting and extending children's development and learning
- Positive Relationships-children learn to be strong and independent from a base of loving and secure relationships with parents and/or key person
- Learning and Development-children learn and develop in different ways at different rate and all areas of learning and development are equally important and interconnected.

Working in partnership with Parents and Families

As a registered childcare provider, it is my aim to work in partnership with parents and carers. Most importantly, recognising the prime role that parents and carers play in their children's upbringing. You as a parent know your child best and I will listen to your advice, value your beliefs and work in partnership to provide continuity of care. Respect will be shown for family's traditions and childcare practices plus the service that I offer will run harmoniously with your own values, wishes and beliefs.

Communication is very important; I hope that parents feel at ease to share any concerns or questions they may have with me. I welcome anything that has a positive outcome on a child in my Care.
